

Praanesh Balakrishnan Nair

Bengaluru, India — +91 9353606438 — praanesh.b.nair@gmail.com
compileartisan.dev — linkedin.com/in/praanesh-nair — github.com/CompileArtisan

Technical Skills

- **Languages:** Python, Java, C++, C, JavaScript
- **Web Technologies:** Astro.js, React, REST APIs
- **Machine Learning & AI:** Deep Learning, Convolutional Neural Networks (CNNs), Transfer Learning, Attention Mechanisms, Computer Vision, Image Classification, PyTorch, TensorFlow, Keras, scikit-learn, OpenCV, NumPy, Pandas
- **Development Tools:** Git, GitHub, Linux (Arch), Doom Emacs, Vim, VS Code, Jupyter Notebook, Kaggle
- **Technologies & Concepts:** Data Structures & Algorithms, SQL/DBMS, LaTeX, Org-mode, Object-Oriented Programming

Education

Amrita Vishwa Vidyapeetham, Bengaluru <i>Bachelor of Technology in Computer Science and Engineering with Artificial Intelligence – CGPA: 8.82</i>	Aug 2023 - Present
Sri Chaitanya Techno School, Bangalore <i>Senior Secondary Education (CBSE Board) – Score: 83.4% (417/500)</i>	2021 - 2023
Jaigopal Garodia Rashtrotthana Vidya Kendra, Bengaluru <i>Secondary Education (CBSE Board) – Score: 94.0% (470/500)</i>	2014 - 2021

Honors and Awards

Amrita Vidyanidhi Scholarship <i>Slab 1 (highest tier)</i>	AY 2024–25
• Fee-slab upgraded from Slab 2 to Slab 1 by the University Scholarship Committee for commendable academic performance	

Projects

CompileArtisan: Personal Portfolio & Blog	Dec 2024 - Present
• Developed a personal website using Astro.js, React.js, JavaScript and CSS; deployed on Cloudflare Pages • Implemented dynamic routing system for Markdown-powered blog posts with optimized content delivery	
Weed Growth Stage Classification (Research Publication)	Nov 2025 - Jan 2026
• Designed a DenseNet121 + Triplet Attention architecture achieving 95.43% accuracy across 43 weed growth-stage classes with only 8.79M parameters • Benchmarked 9 CNN architectures and 8 attention mechanisms; Triplet Attention cut validation loss by 18.4% and raised recall by 3.25 points while adding just 297 parameters • Curated and augmented a 35,847-image dataset across 6 weed species from the CWD30 benchmark, improving accuracy 0.91 points and F1-score 2.43 points over baseline DenseNet121 • Tools: Python, TensorFlow/Keras, OpenCV, Jupyter Notebook, Kaggle	
Blockchain-Based Communicator with Multicast Transmission	May 2024 - Nov 2024
• Engineered a decentralized peer-to-peer communication system using Java with RSA encryption and SHA-256 hashing, using multicast sockets to eliminate centralized servers • Designed blockchain architecture for message integrity verification and tamper-proof communication logs	

Leadership and Activities

President, CodeChef ASEB Club, Amrita Vishwa Vidyapeetham	2025 - Present
• Leading and organizing competitive programming initiatives, contests, and peer learning sessions	
Event Lead, "Write Your Own Programming Language" Workshop, Dastaan Multifest <i>Amrita Vishwa Vidyapeetham, National Level Multifest</i>	2025
• Organized and conducted a technical workshop on programming language design and implementation concepts
